

Datamine Canada

SOFTWARE DEVELOPER

The Company

Datamine is one of the world's leading developers of geological modelling and mine planning software for the mining, geology and exploration industry. Datamine has sales and technical support offices in every major mining country around the world. We are currently expanding our business in Canada and seeking a software developer for our office in Sudbury.

The Position

- Datamine is looking for a motivated software programmer who is enthusiastic about developing an interest in Datamine's products and gaining an understanding of how they are applied within the mining industry.
- The successful candidate will join an Agile software engineering team using the SCRUM methodology and working closely with software architects, mining engineers and geologists who together produce and support a wide range of products which aim to meet the needs of the technical mining industry.
- Datamine can offer the enthusiastic candidate the opportunity to get involved in varying and wide-ranging applications of software solutions to solve real world problems.
- The candidate may need to occasionally travel to other international Datamine offices.

Ideal background

- Degree in IT, Computer Science or relevant field
- Knowledge and abilities required within software, customer service area, and database management
- Good understanding of computer systems, mobile devices and other tech products
- Proficiency in English

Key Success Factors

- Intermediate developer with at least 3 to 5 years of programming experience on large projects.
- C#, .NET programming experience.
- Power Builder and C++ are considered an asset.
- Experience with SQL Server databases.
- Experience with Unit testing -- TDD experience is considered an asset.
- Knowledge of OO concepts and Design Patterns.
- Strong analytical skills with a practical approach to breaking down problems.
- Good teamwork and communications skills.

If you are interested in applying for this position, please send your resume and cover letter to accounts.ca@dataminesoftware.com.
